

CREATURE COMFORTS

DJ KITTEZ IZ IN DA HOUZE

Some cats have a desire to burn up the decks and become a DJ. This cardboard mixing deck can train your cat to stay away from scratching the couch to mixing it up on the kitty dance floor. It features a spinning deck and possible arm and comes flat packed to challenge humans in its construction. No tools and no glue are needed and in no time your cat could be the next YouTube star.

STAY WARM IN DA HOOD

These gorgeous little plush velour Hoodies will keep your pack warm through the autumn chills. Easy to pull over, they have stylish ribbing at the arms and the tummy for easy fitting. Machine washable and a gentle tumble dry will keep these easy care Hoodies in shape.

Pretty mugs for Pet Lovers

These retro inspired mugs are big enough to hold one to two cups of coffee or tea. Celebrate your inner poodle or cute kitten with these gorgeous and generous sized mugs.

I TOUGHT I SAW A PUDDY CAT!

The Sylvester Bird Box provides a safe and snug place for your backyard buddies to roost and rest. Birds should never fly into the jaws of death (although through natural selection some do) but this is a safe haven with a sense of humour.

LIFE'S A PARTY WITH HUMMINGBIRDS

If you've ever hosted a party and forgotten which glass of Pinot Gris is yours then these cute little Hummingbirds could find your vino. The simple design fits most glasses, sitting snugly on the rim of your glass—so the hummingbirds do not fall in your drink! The Hummingbird Party collection comes in sets of six colours, with the birds in various stages of flight.

WHISTLE AND YOU'LL FIND YOUR KEYS

How many times have you rushed in from picking up the kids, dropped the groceries off or just flopped down on the couch, only to wonder hours later where you dropped your keys? Just whistle for them and this faithful friend will alert you to their location. Fetch My Keys is a dog shaped key ring designed to fetch your keys (or at least alert you to where they are) should you lose them down the back of your couch. Whistling sets off a beeper inside the key ring, and causes the dog's nose to flash, guiding you to them like a good companion should.

AND IF YOU WOULD RATHER WHISTLE TO A LITTLE BIRD...

Another cute key finder is the Little Sparrow Keyring. He also responds to your whistle and has a little birdie house where you can keep him stowed.
